

# Student Instructions for Practice Exams

**Print this document and refer to it during the Practice Test.**

## Instructions

- During the practice exam, students should only have access to a calculator, paper, and pencil.
- Complete the Practice Exam in one sitting (Corrections can be done at a different time.)
- Each question is only allowed one attempt. There is **no Submit button** after each question.
- Practice exams are not timed. But try to take it like the real exam which is limited to 1 hour & 15 minutes.
- Practice Exams can be taken multiple times. Only the highest grade is recorded in the grade book. It is recorded as a homework grade. Repeat each practice until you receive a 90+.
- The Practice Exams count as a Practice Set. **If a Practice Exam is not completed, a 0 is recorded in the grade book.**

## Take the Practice Exam

- Solve each problem on paper first.
- Enter the answer. (Reminder: There is no “Check” button on Practice Exams.)
- When all questions are completed, click Submit All & Finish.

## Correct Missed Problems

1. The Results page is now displayed with the correct answer for each question.
2. Start a new page of notes titled, “Practice Exam 1 Corrections”.
3. In the “Feedback” section, at the top of the Results page, under your grade, click the link to the **Solutions PDF**. It has step-by-step solutions to every question.
4. For each missed problem, follow these steps:
  - Look at the solution for the first missed problem.
  - You should now know how to solve the missed problem.
    - If so, solve it on your Corrections page. Do not copy the solution.
    - If not, skip it and continue to the next missed problem.
5. For all missed problems you are unable to re-learn and correct, [contact Dr. Shormann](#).
6. Show your corrections page to your parent.
7. If you didn't score a 90 or higher, take the Practice Exam again. Continue re-taking the exam until your score a 90 or higher. The highest grade will be recorded in the online grade book.
