

# Recommended Calculators: Saxon Math

## Saxon Algebra 1, 2, and Advanced Math

Either a scientific or graphing calculator can be used. Dr. Shormann recommends a graphing calculator (TI 83, TI 83+, TI 84, or TI 84+) because the entire problem can be seen on the screen, making it easier for the student to understand. A scientific calculator, which is much cheaper, can be used instead.

Dr. Shormann will instruct students on when to use calculators in the DIVE lessons.

## Saxon Calculus

A Graphing Calculator is **required** for Calculus.

Dr. Shormann uses a TI-83+ in the DIVE lectures. Therefore, he recommends one of the below as they are all very similar.

**TI 83, TI 83+, TI 84, or TI 84+**

The following are also acceptable but require the student to learn how to use the calculator on their own. YouTube has a lot of good videos that teach how to use your calculator.

**TI NSpire**

**TI NSpire App for iPads \$29**

**Any Other Graphing Calculator**
