

# Placement Chart for Shormann Math

1. In the first row of the chart below, find the publisher of the math course(s) the student has (or will) complete.

If your student failed or did not complete Pre-Algebra or the equivalent, see [Dr. Shormann's Recommendations](#).

2. In that column, click the title of the course the student has (or will) complete.

If your student struggled, failed, or did not pass, select the course as instructed above and you will see options for these situations.

3. If you want to switch to Shormann Math before completing your current course, see [Switch to Shormann Math](#).

**Important: Follow the steps above to find the correct course for your student.**
